Jainarine Bansee

President,
Association of
Professional Engineers of
Trinidad and Tobago

Jainarine Bansee has over fourteen years experience as a faculty member at two universities, where he has lectured in the undergraduate and post graduate programmes and supervised and examined final-year project students. In addition, he has delivered over 1,250 hours of professional education training for various local and multinational organisations. He has also lectured for ten years part-time at a senior secondary school. Furthermore, Jainarine has acquired over twenty years of diversified industrial experience in the process and manufacturing environment.

Jainarine holds qualifications in Mechanical Engineering, Production Engineering & Management, Manufacturing Engineering and Business Administration. He also holds professional membership in IMechE, APETT and ABE. Jainarine's voluntary services have been extended to various committees and associations.

Currently, he is a Development Engineer at UWI, Chair of IMechE Pan Caribbean Group and President of APETT. Jainarine is result-driven, self-motivated and creative, with excellent team building skills and takes initiatives to get the job done in a proactive environment.
